

Heritage Statement for the Planning Application 20251180 Replacement of 3.6 metre high chain link fence around the play area with a new 3 metre high fence

Cobham Parish Council are aware that the site is located within a conservation area.

The replacement fence does not impact on the setting of the conservation area and is immaterial to the preservation of the area.

The condition of the current fence is in a poor condition with large holes in the chain link, and the new fence will enhance the area. The current fence is black and the new fence will be powder coated green which will fit in better with the playing field.

The replacement fence will provide the safety of the children's playground from errant cricket balls and footballs and will discourage dogs from entering the playground.

Please see some the photographs of the current chain link fence
