Reasons for comment:

Comments:	I feel that our "village" does not have the infrastructure to support this amount of additional housing ! School places/dentists/doctors. Current residents already have trouble accessing some of these services and our nearest hospital (darenth valley) and the influx of more people will be serious issue for an and e services and waiting for treatments. Additionally, the roads are not designed for the amount of additional traffic that these new houses would create - traffic is already anticipated to increase due to the new crossing and will be barely able to cope without any additional cars in the area due to this proposal. This will also have an effect on air quality and pollution to a village in the county where people live for fresh air and open spaces. We cannot continue to build on every green space for profit we must consider the wider picture to local people/services/ infrastructure and nature.
