Reasons for comment:

Comments:	I feel that the number of houses proposed cannot be supported by the current schools or go practice The A227 is already congested and the amount of traffic this would create would only increase this their are parking issues already and it is probable that this site would have insufficient parking causing fitbit issues The village with this number of houses would also be extended to a point where we would loose the quintessential village way of life I also feel that we are losing large swathes of countryside around us houses are being built in vast numbers which has an impact on the environment and wildlife locally I would say also that I don't believe that these houses will be affordable in the way that is being out across I As to the parking please see the new site which was recently built on the old police houses site card are always parking on the pavement obstructing pedestrian access all due to inadequate parking please consider this as I very much doubt that we will have a day in this development There are good reasons to build houses but not so many in a small area
-----------	--

Kind regards
