Stance:	Customer made comments neither objecting to or supporting the Planning Application

Reasons for comment:

Comments:	It is vital that a full Environmental Impact Assessment is requested of the Developer by the Gravesham Planning Authority. The junctions at Longfield Road and Camer Parade with the A227 are well-known accident blackspots and, during school opening and closing times, suffer long tail backs of queuing traffic. Additional traffic attempting to access and depart from the new developments in this vicinity would create further risk to oncoming vehicles and the safety of children and adults. Any increase in queuing traffic, including idling cars and HGVs, will further elevate air pollution levels during school start and finish times and pose a significant health risk to children who are particularly vulnerable to pollution. Most households now use two cars. That means a potential 700 additional cars accessing the two busiest road junctions in Meopham. In addition there is the wildlife element that is most important along with the loss of food production. In my opinion a full environmental impact assessment should occur and I hope that Gravesham planning will agree. Y M [REDACTED]
