Reasons for comment:

Comments:	I believe an EIA Environmental impact assessment should be carried out! I have lived in the beautiful Village of Meopham over 50 years and often walk through these fields by Camer where I see wildlife, peacefulness and calming trees and flowers, I do not want to walk through a Housing Estate. These extra dwellings will bring about a 1000 more cars on our roads. It is already impossible to park on the Parade and at the station shops as always so busy. I have seen people almost forget to stop at the new pedestrian crossing outside chemist. The cars also emerging from the Parade are edging out on to the already busy road. People will not walk from the extra parking on the new development, I live by senior school and the extra parking made no difference they still park in Cheyne Walk to pick up. The Meopham Medical Centre already struggles with appointments now, let alone all these extra people. There are not enough facilities to accommodate even more. The introduction of a new pedestrian crossing on this already very busy road, would be an accident waiting to happen. I like our beautiful fields of peace and calm, please leave our Village alone. There are loads of building opportunities crying out for development in Gravesend, or even Brown Fields, may be a little costlier but would save our countryside, birds, flowers and wildlife.
