

10th December 2025

The Planning Officer
Gravesham Borough Council

Dear Sir/Madam

Ref: 2025116, Norwood Lane, Meopham

This parcel of Green Belt land should not be
spoken for development because of the dangerous
access it would require onto a country lane
namely Green Lane. Of the three attempted
development plans in Meopham this would
be the least obtrusive but is adjacent to
Camer Park, part of The North Kent Woods
and Downs National Nature Reserve as well
as an AONB and SSSI. This land with
its views across The Thames is essential for
everyone's relaxation, health and pleasure
and to maintain the benefits this open and
cultivated land provides to Gravesham
and the Medway Towns.

Green Lane is often overburdened with
vehicles when emergencies arise on the A2;

one who knows the area, or Set-nav, use the
one through Sole Street to zig-zag their
way through Longfield also to reach the M25.
The lane is totally unsuitable for large
trucks although essential for agricultural
uses.

Yours faithfully
