Reasons for comment:

Comments:	<p>Longfield RoadHill is a dangerous road that will become perilous with 240+ extra cars using it on a daily basis. The road is currently too narrow with the many parked cars making it a danger for vehicles trying to use it. With the two schools traffic the road will become gridlocked on a daily basis causing accidents for already overstretched emergency services to deal with.</p> <p>The vulnerable children that attend the SEN school will not deal with the daily noise and havoc this extra traffic and people they will experience.</p> <p>Loss of our agricultural farm land will not be able to be replaced leaving future generations no choice but to import causing environmental and monetary problems.</p> <p>Longfield Hill bridge will become even more a danger area. Especially while construction is ongoing but also for the future it is not wide enough to take all the hgv's and delivery vehicles it currently has to. All the lanes off Longfield Hill are too narrow to cope with problems when Longfield Hill is gridlocked. There is problems parking for the parade and this will increase massively.</p> <p>There is not enough school places, doctor availability and hospital facilities at the moment so that will be areas that will not be able to cope with the extra residents.</p>
