Reasons for comment:

Comments:	<p>I wish to register my objection to Planning Ref. 20250993 for the development proposed on Longfield Road next to Helen Allison School. Longfield Road is already heavily used by large vehicles travelling to the weigh bridge at Green Street Green, and the existing 50 mph limit means many drivers continue at high speed as they approach Meopham, creating a hazardous environment. The road is extremely narrow, frequently lined with parked cars and severely congested at school start and finish times. Adding traffic from 120 new homes, along with the associated service and delivery vehicles, would significantly increase the risk to residents, road users and the school community.</p> <p>Helen Allison School supports children with ASD who depend on a quiet, low-stimulation environment. Increased noise, traffic and activity from such a large development would cause stress and sensory overload, negatively affecting the wellbeing of vulnerable pupils. The proposed site is also high-grade agricultural land that has been productive for generations and remains important to local food production. Overall, the scale and location of this development are inappropriate, unsafe and harmful to the surrounding community.</p>
