FAO: Ethan Bonthron

Dear Ethan,

County of Kent Act 1981 Section 53

Re:24 Stone Street, Gravesend, Kent, DA11 0NP.

Thank you for your letter dated 19 May 2023 regarding the planning application for the proposed development of the above site and request for our observations.

I confirm that the means of access for the fire and rescue service under the above act would be considered satisfactory. The proposal does not appear to affect the existing arrangements according to the proposed site plan and drawings provided on your portal.

Applicants should be aware that in the event of planning permission being granted the Fire and Rescue Service would require emergency access, as required under the Building Regulations 2010, to be established.

Fire Service access and facility provisions are a requirement under B5 of the Building Regulations 2010 and must be complied with to the satisfaction of the Building Control Authority. A full plans submission should be made to the relevant building control body who have a statutory obligation to consult with the Fire and Rescue Service.

If you require any further advice please contact this office using the details above. Please be aware that the Building Safety office hours are 09:00-17:00 Monday to Friday.

Yours sincerely,

Nathan Murphy AIFireE
Fire Engineering Design Technician.
