Re: New Electrical Pitch lighting works
Project: Kedbull Leisure Football Pitch Lighting works

Dear All

AGL recently carried out the Full electrical installation works for the new Seven Nine and Eleven a side football pitch Flood lighting System.

The works are supplied via a time clock located new to new Distribution Boards within external GRP Units until phase two starts.

Upon Completion of Phase two the Lighting system will then being controlled via app basis.

All lighting posts and civil works was carried out by others prior to installation prior to electrical installation starting.

Phase One installation was carried out as per the following “approved” design drawings attached along with a data sheet of the Flood lights also.

Commissioning of the lighting package was carried out by MGlites
