Reasons for comment:

Comments:	Walnut Tree Way is a narrow unclassified road. The semi detached houses were built with a garage and a parking space on the drive. The garage is suitable for a family car, we have used our garage for many different cars over the last thirty years and continue to do so. In recent years several households have demolished their garages and now park their cars in the road half on the pavement. More recently these road parked cars have made it very difficult for me to turn into our drive to park and to access our garage. On occasions recently there has been cars parked close but on opposite sides of the road and these block access to emergency vehicles. Allowing further garages to be demolished is only going to exacerbate this problem.
