

This architectural drawing shows the front elevation of a house. The structure features a gabled roof with horizontal siding. On the left side, there is a chimney. The facade includes several windows: two small square windows on the upper left, a larger multi-paned window on the upper right, a large double window on the lower left, and a tall narrow window next to a smaller square window on the lower right. A dashed vertical line indicates a section cut on the right side of the drawing.

A line drawing of a house. The main part of the house has a gabled roof. To the left, there is a smaller section with a lower, gabled roof. The drawing uses simple lines to represent the structure, with no shading or texture.
