Reasons for comment:

Comments:	<p>I strongly object to the building on our Green belt. We need to keep our green spaces, agricultural fields, trees and hedgerows as they are the most important piece of our already fragile eco system.</p> <p>The impact of hundreds of houses on this land will displace all the wildlife and will damage their habitat, these creatures play an important part of our eco system.</p> <p>The dramatic changes to the land will no doubt have a huge knock on effect. The surrounding roads are already at capacity and the narrow surrounding lanes are definitely will suffer.</p> <p>Light pollution will also change the village. We chose to live in this area because of the lack of street lighting! It makes for a calmer environment to live in and is good for your wellbeing.</p> <p>Our medical practices are also likely to suffer as they are already at capacity, making it harder to get appointments.</p> <p>There is already insufficient parking at the parade of shops - with increased number of vehicles this will make it impossible to use them driving locals away from using them.</p> <p>Whilst we acknowledge more housing is required - shouldn't potential unused brown fill sites be used first?</p> <p>We moved to this area for a quieter calmer life, like many we want it to stay that way for our wellbeing.</p>
