Reasons for comment:

Comments:	This huge development will make meopham a town and not a village. There is already a severe water shortage most summers resulting in hosepipe bans and this will add to the lack of water. There is inadequate waste water / sewage treatment plants in the area . There is a large shortfall of medical facilities throughout Gravesham including major hospital beds, doctors and dentist. All senior schools are at capacity as are most primary schools. Meopham is served by country lanes that are already overflowing with traffic and will soon be a major cut through for traffic trying to reach the lower thames crossing from the M20 to the A2 . This along with the rest of the proposed housing developments for North kent will just be unsustainable in my opinion. I would liken it to the developments in thanet that have taken over prime farming land and are still not fully sold, so where is the demand for these houses. Where are the people to fill them ,who can afford them and not have to use drs etc. the houses are not needed in the cast quantity propose. What will happen when we no longer have farming lan
-----------	---

Kind regards
