Reasons for comment:	
Comments:	<p>Do not destroy our Greenbelt and countryside.</p> <p>There is a public footpath across this field where you can walk without even having to get in a car to reach it.</p> <p>If nothing else the Coronavirus Pandemic emphasised how important countryside and nature are for our physical and mental health. We should be saving our environment not destroying it.</p> <p>The proposed site is the home to Skylarks, a bird that due to its recent decline makes it UK Conservation Status Red. This bird is so special as unlike other birds it doesn't sing until it is flying high above you in the sky.</p> <p>We should be protecting it for future generations, it is important we do not continue to destroy their habitat. In other parts of the UK the fields where they nest are being protected to help save them from extinction. Why are we thinking of destroying them? We should feel ashamed.</p> <p>We need to protect our environment and planet not continue to destroy it, once it's gone it's gone FOREVER.</p> <p>How would Meopham cope, the local facilities are already struggling. There is no mention of providing a Doctors Surgery or Dentist.</p> <p>Norwood Lane and all the surrounding roads could not cope with all the extra traffic.</p> <p>You already have to queue to get out of Norwood Lane on to the A227 Wrotham Road and where that joins the A2 towards London every morning all 4 lanes are always gridlocked.</p> <p>Think of the air, noise and light pollution even electric car chargers give off light</p>

pollution.

I appreciate new homes have to be provided but not at the risk to already endangered wildlife.

There are empty buildings all round Gravesend where the infrastructure for electricity and plumbing would already be in place

Taylor Wimpey say they will plant trees and wildflower meadows , there are already trees and beautiful hedgerows .

Save them and work towards saving our planet.

Kind regards
