From Highways **Development Management Officer**

Date 23rd December 2019

Your Ref 20211541
Location Metropolitan Police Specialist Training Centre.

This proposal gives rise to some concern as it appears to be displacing vehicle parking, with no alternative location being provided for the displaced vehicles. I note the applicant states there will be no impact as the wider site can accommodate, but no details are given and are not included within the red line.

The applicant should therefore clarify where the displaced vehicles go, clearly indicating the area required to accommodate the displaced parking.

As it is stated there will be no increase in vehicle movements due to this development. It is requested that the applicant confirms there will be no increase in students or trainers attending the site.

Once these issues are satisfactorily resolved I would have no objections.

Les Seaborn

Highway Development Management Officer
