

Application 20250604

URGENT

Further to my email of Objection yesterday

I should also have advised regarding the potential problem which might well arise with heavy vehicles crossing Public Right of Way NS190.

Just a few years ago a walker suffered a serious injury while on a PROW footpath. The insurers claimed massive compensation from both the landowner and Kent County Council.

The PROW officer should have explained this to CHV if he was consulted.

By permitting a situation creating such a risk no doubt any insurer would also take action against GBC.

This issue should be addresssed by the GBC legal department as a matter of urgency.

Sincerely
