Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments: I live at [REDACTED] which is to the west of the application site at no 48.

I do not object to the principle of the two-storey side extension. My objection relates solely to the proposed window serving bedroom 3 on the extension's western elevation.

The existing two windows serving bedroom 2 overlook the immediate rear [REDACTED] back garden. As a result, it is the middle and end of our garden that enjoy a degree of privacy. The proposed new window on the first floor of the extension will remove that privacy and effectively result in [REDACTED] garden being completely overlooked. We consider that to be unreasonable and unacceptable.

I suggest that this problem can be simply resolved by moving the offending window from the western to the southern elevation. This amendment would retain the level of amenity within the proposed extension, deal with the significant loss of amenity to my garden and not result in a loss of amenity to no 50. The amended window would only be afforded views of the front garden of the neighbour to the south, with only extremely oblique views to its rear garden.

I trust that you will consider this objection carefully and negotiate an amended scheme to discharge your responsibilities to have due regard to the impacts on my property that I have highlighted in these representations.

Kind regards
