re: Planning Application 11 Longwalk, Island Rise.

I OBJECT to the above Application because :-

- 1/ Longwalk is a narrow road and destruction of the driveway will make parking even more difficult.
- 2/ His sketch for the 2nd car space does not allow for the width of the second car to enter next to his car.

[Can you make it a PROviso that the extra car space is done before the extension is started?] (Street lamp lay down)
