

Email response from agent 24/09/2024 09:00

Dear Katherine,

Thank you for your e-mail. Please find attached the consultants response.

To accompany the attached the consultant has said the following:-

“As previously mention, the infiltration test were carried out close to the proposed location of the tank. These were hand dug and to a depth that was appropriate for a hang dug test pit.”

I hope we can now bring this matter to a close.

Kind regards,

Joe Martin B Arch, BA Hons, ARB, RIBA

Director
