Reasons for comment:

Comments:

- .Impact of traffic coming in and out of land
- .Parking for the amount of dwellings and other buildings recommended on application
- .No restrictions if passed to be able to add more amenities to this land
- .A dwelling of a permanent property on a smaller scale already been turned down prior to the first application on this Land of applicant
- .Already a mobile type home has been put on this Land before it has even been approved this chaos this caused throughout the whole village andno thought for anybody but themselves
- .As far as I'm aware, nothing done by the council to oppose this and have it removed as no permission had been granted and application just applied
- .Does this now allowed me put a dwelling of a mobile home on my land so that my family can live with me?
- . Not being if approved in character of the area.
- . if this is approved, what is to stop more of this type of application succeeding in this area until we are overrun with mobile homes?
- . Why can't the applicant not apply for a bungalow type building being put on this site with the correct parking and in keeping with the village even though something like this been turned down surely labour could now put a stamp of approval on something that would keep everybody in agreement
- . is there on this application? A plan for where vehicles will park on site and how they will turn around without having to back onto the narrow Road where cars already park opposite here with dwellings that have been there for many years because I can see the next thing that yellow lines being put here then where will they park? Probably encroaching into the Pub car park?
- . Is the whole area going to become concrete or have some landscaping suggestions been put in place?
- .

Kind regards
