Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Meopham is a small village that already has a primary school over subscribed to and a secondary school. One nursery with a waiting list. No thought to the road that is already has a large amount of congestion. Morning and evening and this will get much worse. With that the pollution in the area will go up, all of the people that bring up there children in the small village to help there children's asthma and hayfever allergies are going to be forced to reconsider living near a road that would become even busier. Pollution has killed children with asthma. No thought has been given to the GP surgery that you can barely get an appointment with this is the same for the surrounding GP surgeries and the local hospital that struggles with 12-14 hour long waits for A and E departments. 2year waits for thinks like hip replacements. It appears that no thought is given to any of the structure that makes Meopham a village and another 400+ houses would ruin our lovely landscape running and walking routes. It would overcrowd our community turning it from a village to a town. We moved away from the town for good reasons not to have it follow us and ruin our children's health, and our beautiful village.

Kind regards
