Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I fully object to these plans for the following reasons. It will impact the environment massively by destroying natural habitats for wild life . Getting rid of prime farming land which has fed us for centuries ,we will be more at risk from foreign imports and higher prices. Who protects the farmers livelihood and families? Where will excess surface water go if all the land has been concreted over? We haven't got the infrastructure to cope with more houses/people. It's hard to get seen by a doctor now. The nearest hospital is overstretched as it is with all the extra houses that have been built around it. The roads are too busy already with extra traffic coming through the village causing extra pollution. The surrounding road are country lanes so won't cope with extra cars and cause gridlock . There will be pressure on the schools, parking and we don't have Adequate public transport to cope with extra influx of people. We are a Village!!! This is why we live here and that will be ruined forever and all our sense of peace and community will be gone.

Kind regards
