Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This green belt land never been developed and there is a need the protect the countryside and the green belt and the habitat of the flora and animals that live in the area , so there for there is a obvious necessary to have all the evidence shown in a complete examination of the habitat of all species that are impacted by this over large development on green belt farm land which is currently being farmed There are many sites in the built up area in Gravesham that are laying empty and derelict and have been for a number of years that should be developed first that would provide the homes needed for social housing / affordable housing which are close to transport links ie train / river and main wide roads and employment Which is not the case in the area of this development were the roads mostly are very narrow the transport is poor and the infrastructure is failing now and very little employment available with out travel and huge traffic problems again impacting the local existing environment and population

Kind regards
