Parking

Will the proposed works affect existing car parking arrangements?

- ☒ Yes
☐ No

If Yes, please describe:

The Kent Design Guide (Vehicle Parking Standards, 2006), requires that 4 bedroom dwellinghouses have 3 vehicle parking spaces, with an additional space per bedroom over that number. Given that there would be no overall increase in the number of bedrooms, no additional spaces are required. Whilst the existing tandem garage is removed, and replaced with a wider single garage, the existing garage is not used for car storage and as such no displacement occurs. Furthermore, the tandem garage is not of appropriate width for modern cars (less than 2.9m width between pillars). As such the widened garage provides one additional space.

In addition, the driveway can accommodate at least 4 cars, so there is no shortfall in provision.

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☒ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
