## Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I object to the application on a number of material considerations.</p> <p>The development would be unsustainable, as the existing local infrastructure would not be able to cope with the increased population. There would be an impact from significant additional traffic in terms of increased congestion and additional risk to highway and pedestrian safety, which would be exacerbated by the lack of adequate public transport provision. There is also a lack of sufficient schools, healthcare facilities and other public services to support the new homes.</p> <p>The development would have a an overbearing impact on the surrounding area due to its scale. It would also lead to a loss of biodiversity due to the loss of habitats for wildlife.</p> <p>This development would be wholly inappropriate encroachment into the countryside, leading to loss of character of a historic village, harming the setting irrevocably; it is unsustainable and would ultimately lead to housing that would not provide amenity to either existing residents or those who in future may occupy the new development.</p>
