Reasons for comment:

Comments:

Scandalous that building should be considered on Blackthorn farm when there are Dormice & a wealth of wildlife on the land. I've lived in Culverstone Green opposite the primary school for 30yrs & it's dangerously busy on the road. If there are road wrks we can't get out of our drive because the build up of traffic is immense. This is without the added access road, construction traffic & ultimately cars being driven in and out by the new residents when it's all finished. The A227 is already unsafe. Just look at all the road traffic accidents that have happened in the last year alone.
People need a place of peace & some tranquility which is only just possible now. This is a beautiful area without the infrastructure for 100 or more new homes. It's green belt land!! Why is that not considered sacred anymore? This land contributes to openness, landscape quality & sense of separation from other settlements.

This farm contributes to the bio-diversity of this village. The proposed building works in NO WAY align with local needs. It puts added pressure on medical services and will impact on winter flooding as there will be inadequate run off area for rainfall plus more stress on the sewer networks and other services. Don't do it. We don't want or need this.

Kind regards
