## Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I object to this outline planning application. The facilities in Meopham (doctors surgery, schools, shops etc) are already over crowded and they could not cope with the occupants of 100 new houses in the area. In addition, this development does not comply with the Government's National Planning Policy Framework, December 2024, and does not align with Gravesham's planning strategy. Gravesham Borough Council has stated that it intends to prioritise redevelopment of brown field land. This is a green belt site which has not previously been developed and also does not meet any criteria for grey belt land.</p> <p>The site adjoins a designated area of ancient woodland which must be protected.</p> <p>There are no reliable modes of local transport in this area with the current bus service being very limited and unreliable. The two train stations are not within walking distance, requiring access by car, and parking at these stations is both minimal and expensive.</p> <p>The proposal for 100 homes equates to an additional 200+ vehicles using the access point on Wrotham Road. This would add to the existing heavy traffic volumes, would not be safe particularly at peak hours when the A227 regularly becomes gridlocked with local side routes being totally inadequate to support diversions when required. It would also hugely impact on air pollution.</p> <p>The A227 is used as a cut-through by various vehicles, including HGVs despite the narrow road and pavements, especially when there are issues on nearby major roads such as the A2, A20, M20, and M25.</p> <p>For the above reasons, this application should not be recommended for approval.</p>
-----------	---

Kind regards
