Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I wish to object to the above application on the following grounds.</p> <p>The A227 has become a rat run. Huge HGVs, school buses, commuters etc. This development will only add to this nightmare and with the construction of the new tunnel under the Thames, it will create another cut through.</p> <p>Public transport in this area is virtually non existent, so residents will have to rely on their own transport. This will create even more congestion and pollution.</p> <p>In any case, this land is greenbelt. With developments like this and other applications that seem to be imminent, Meopham will no longer be a village. Our schools and medical facilities can't cope now with residents unable to get their children into their local schools and patients finding it increasingly difficult to see a doctor. Another 100+ families will just add to this problem enormously.</p> <p>This particular piece of land is home to many species of wildlife. What will happen to them? At this rate, we will lose not only our beautiful countryside but also its inhabitants. It is just so sad.</p> <p>I really hope that Gravesham Borough Council will be empathetic to the current residents of Meopham when considering this application and join with them in objecting.</p>
