Re: 20230515 St Andrews Gardens Dear Kelly

Thank you for your email. For some reason, my emails with documents attached are being rejected. I attach a WeTransfer link to (revised) additional documents, drawings and photographs to enable you to determine the lawfulness of the physical works. This involves:

- The relocation of the existing electricity/water services pillar, and the installation of an additional electricity/water services pillar;
- The replacement of 3 x existing 10 tonne mooring bollards with 3 x 20 tonne mooring bollards, and the possible installation of 1 additional 20 tonne bollard;
- For completeness, the drawings also show the possible extension of one of the existing raised concrete access platforms, which may be necessary if LV21 is repositioned to the eastern end of the quay.

I trust you will find the documents satisfactory. If you require any clarifications or further information, please do not hesitate to contact me.

Best regards
