I wish to object to planning application number 20260649 for the reasons stated below:

The Drove Way Road was never built or designed to carry the extra volume of vehicles and construction traffic that this proposed development would entail. Why is there no proposal for the developers to build a new road from the North of the proposed development to the A227? I believe the land involved is Green Belt so why should it be built on. The farmland should be kept for growing crops and animals to feed the population. Currently the essential services such as the GP surgery, local schools, shops, bus service, hospitals as well as the supply of electricity gas and water are all struggling with the demand. This proposed development, together with the one by the school in Downs Road will only put more pressure on already inadequate systems.
