I wish to object to planning application number 20260649 for the reasons stated below:

I object to the use of viable farming land being used for house building purposes. The destruction of trees and their environment which supply safe haven for all manner of wildlife. Adding another 100 houses bringing possibly 150+ cars to use the one entrance from the Istead Rise road to the Drove Way, is ridiculous, and a dangerous idea. The local roads do not need yet more vehicles, hardly a day goes by when the A2 isn't brought to a standstill. Until more reservoirs are built the water suppliers are struggling to supply their customers, our local school is full. The doctors + hospitals are so busy, patients are waiting.

Kent was once the garden of England.

Now we are under so much concrete. Kent is being swallowed by the urban crawl from London.

We need our farmland. We are an island,

food supply should be our main concern.

With 'global warming' we should be able to grow more of the crops, instead of importing them. So hands off the British Farm lands.
