Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I would like to object to this application. Before the site was fenced off, it was a well-kept green space with a large mature tree that added greenery and character to this busy main, who in their right mind sold public green space to be fenced off? Since then, the tree has been cut down and a large fence installed, which has had a negative impact on the appearance of the area. I would like clarification on whether the mature tree was assessed before being removed. Given its size I also note that the plans show the tree being retained, when in reality it has already been removed. The retrospective plans therefore do not accurately reflect the current site. Also note from the street it is visible they have installed a large shed which can be seen when travelling down the main road, does this also comply as it appears to be taller than the fence height. I would ask the Council to investigate this and ensure the application is being assessed using accurate information.
