Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	This planned development is in a residential area which already suffers with heavy traffic flow and congestion at peak times. I object to this application because the developers have not provided enough information on the potential impact on traffic flow and associated pollution. This location is very close to St George's school, and it's well established that children are more vulnerable to poor air quality caused by traffic. I'm familiar with that street, which is residential with parked cars on both sides. I would like to see more information on how parking for the proposed McDonalds, and traffic flow, will be managed. Given ongoing national crises around ultra-processed food and an increasingly poor national diet, I also have serious concerns about a fast-food establishment opening so close to a school, and again, I want to know what mitigating factors the developer will be putting in place to safeguard the health of local children.
