Re: Planning Ref 20240013

I strongly object to the above application. Already at the junction of Parrock Avenue Milton Hall Road and Milton Avenue there is congestion every day. There are two schools in the very near vicinity and it already looks like Piccadilly Circus with boys ^{also} crossing the road. How there has never been a major incident is a miracle but it will come if this application goes ahead. Parking was originally a problem in Park Avenue anyway. Please submit my strong objection as I have no computer.
