

Dear Sir/Madam

We are very unhappy about the decision to change the existing dwelling place of 138 Valley Drive from a Class C3 to a Class C2 dwelling. We already have flats and new social housing that have been built over the years since moving here. Also, there have been homeless pods built too. All these have caused lots of antisocial behaviour with traffic, motorbikes and the such speeding and causing trouble along the main road. Therefore, we don't feel it's fair for us to have yet another dwelling with the potential of more disruption. We are starting to feel victimised.

We don't feel this type of dwelling will fit into such a residential area. Also we feel that it will devalue the future value of our property too as people don't feel comfortable living amongst these dwellings.

Therefore we strongly object to any changes.

Regards
