## Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This is a development that will increase the highway safety risks and traffic levels which are already excessive as the main form of transportation will have to be via motor vehicle. It will have a negative Impact on the appearance of the area not to mention the noise , disturbance and over development resulting in the trees and open land being destroyed and not safeguarding the countryside and the species of plant or animals . Utility infrastructure is already over stretched and the flooding risk will increase with all the additional hard surfaces.

Kind regards
