Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This proposed development threatens Meopham and Istead Rise's infrastructure; for example both GP practices are at capacity leaving residents unable to receive timely appointments. Estimates also suggest a potential extra 1450 cars plus local driver vehicles, all creating additional vehicle emissions, and access to Norwood Lane by emergency vehicles would be threatened. Meopham railway station also has no accessibility features (a bridge with no lift) and therefore this is not a suitable location to bring in additional residents who may have access needs such as disabled people and anybody with small children in prams/pushchairs. Furthermore, the development risks creating environmental damage, including an increase in light pollution, removal of flood capture capacity in the current open fields and removing its effectiveness as a large carbon sump.

Kind regards
