Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This is an application that will destroy the countryside, the village and the farming community. It is one woman's greed a woman who ironically marked up her own driveway to stop a neighbour driving across it yet is happy to line her pockets and destroy the green belt. The infrastructure of Meopham will not handle the increase it will lead to congestion accidents and people not being able to access required services. It is totally out of keeping with the area. It is farm land that is used annually for the 24 years I have lived here. It will have a massive impact on the existing community with the noise and disruption of building and will harm the environment and wildlife. The government may not care where people build but the Council should. You will end up with a range of properties that the young generation of this area will not be able to afford. Please block this application clearly these people will not be happy until they have built on every piece of land between Meopham Istead Rise and Gravesend making it one continuous massive built up inner London like area.

Kind regards
