Reasons for comment:

Comments:

I object the this proposal based on the following:

Destruction of a green belt site. This proposal will destroy acres of green belt land forever.

Overpopulation in a rural area. The local infrastructure cannot cope with additional housing. GP surgeries, secondary schools, water supply and flooding risk, additional traffic on narrow, unlit country lanes cannot cope with additional traffic. Routes to major road networks are all narrow and unlit. Additional traffic from the development will end up causing traffic jams in already congested roads. Our house is listed and when a lorry, even the smaller ones, goes passed our house, the window and door frames rattle. Goodness knows what it does to the structure as it has no proper foundations.

The people of Meopham and Sole Street moved to the villages (note the word village) to live in a rural environment and small communities, where they know their neighbours and the sense of community is paramount.

If there is a primary school built, which is fine in the short term, but where do the older children from this development go to secondary school? People struggle now to get their children into their preferred school. There aren't enough places for additional children.

What chance will there be to get a doctors or dentist appointment? The local GP surgery has already stated that they don't have capacity for more patients. GBC must protect its villages as a priority to preserve a way of life that has survived for

100s of years without the need to butcher the countryside for a few individuals to make a massive amount of money. Thank you

Kind regards
