Commenter Type: Member of the Public

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: The lighting situation is unbearable at the moment shining into the windows, the pitches are too close to the local houses the site should never of been allowed to install such bright lights in the first place, I do not recall this or planning application for the lighting in the first place, I would have objected then , the lighting were never so bright originally before the fire / closer of the original site. The new lighting is too close to residence and the lighting should be turned off no later than 2000 hrs to respect the local residents.

Kind regards
