ⁱ Note that agreement is required from applicant for changes to descriptions beyond what is shown on application forms. Lawful Development Certificates require explicit written agreement for any changes to applicant's proposal description.

ⁱⁱ The Validation team will carry out any further neighbour notification at this stage. A simple visual check should also be undertaken when on your site visit, if undertaken,

ⁱⁱⁱ Constraints including Policy designations as well as TPOs, nearby Listed Buildings, Public Rights of Way. Again, the validation team will undertake further consultations if required.

^{iv} Any further information / clarification / correction identified to be necessary following validation should be requested clearly and promptly by the application case officer. This includes where there are errors on plans or where additional reports / statements are required.

Where any critical false information is provided, namely in the case of ownership certificates and red lines (eg: where they claim they own all of the land, and they do not), or such as where for example they claim no trees are affected on the site (and trees are perhaps not shown on submitted plans) and this is categorically not the case – will lead to the invalidation of the application. In which case, the application should be referred back to the Validation team.

^v Recommend entering end of consultation period and deadline date to spreadsheets / calendar.

^{vi} Your applications tracking spreadsheets must be saved in a logical, accessible place on the shared drive
