Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	Object with the same reasons for the 3 other retrospective applications for traveller mobile homes etc on Whitepost lane: The road is not suitable for additional traffic or for the safe wslking if children / adults along it. There is no foot path. The installation of mobile homes over the last year.has in fact been destroyed by the installation of the existing homes - trees taken down, hacked at to get the mobile homes in place The stop noties have been ignored and new mobile homes are installed regularly, including one today. There are more mobile homes on site that have been applied for The whole site has damaged the natural environment, changed the nature of the area and impacted wildlife.There has been a disregard for the local environment. The council / planning have done nothing to provide a nother area of travellers in Gravesham The council / planning have not prevented this influx of mobile homes, damage to land, destruction of trees, impact to local people - when there has been very limited, of poor quality, very retrospective, very intentionally confusing poor planning applications
