Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I strongly object to the planning application (20250764) for change of use of the land south of White Post Lane, Cobham and the erection of 8 Mobile Homes, Dayroom etc. I understand that the land is subject to an existing High Court injunction from 2009 preventing any owners, or future owners, using this site for residential purposes. I also understand that the land has been subject to a number of previous planning applications for residential use. Despite this, and the current outstanding application, development of the site has already begun and large pre-fabricated buildings have already been illegally sited on the land and extensive access and fencing works have been carried out. The transport and siting of these buildings has involved the illegal felling of many mature trees and extensive damage to other trees and hedges through much of the length of White Post Lane. This is a lane regularly used by walkers and horse riders and the devastation that has been caused is heartbreaking to see. The carriage way has been left in a dangerous condition with debris left along the side of the road. Given the known history of this land, the owners, and associates, have demonstrated a disdain for the legal process by beginning the development. They have also shown a disregard for the surrounding natural environment and local residents. I see no logical reason why this application should be permitted and I would expect GBC to take enforcement action in respect of the illegal development and the damage to the environment.
