Reasons for comment:

Comments:	<p>I strongly object to this development. This area of land is next to two schools - directly next to an SEN school - the congestion around this area is already bad particularly during school drop off and pick up times let alone with additional cars on the road driving past the schools. This is in addition to increased levels of pollution and noise for the two schools which will directly impact the children. Cars often park on either side of Longfield road making access and journeys along the road very difficult, the road would not cope with an increase in cars/vehicles. Any student leaving or arriving at the schools are at an increased risk of being injured or possibly killed by the additional cars.</p> <p>The land itself is also used for agriculture which contributes to food production and has done so for years.</p>
