Dear Sir or Madam,

Subject: Change of use request.

We would like to apply for a change of use for our outbuilding that was built eight years ago. It was built under permitted development at our property where [REDACTED] was living, 124 St Dunstons Drive DA12 4BQ, in order to provide various facilities such as storage, gym, games room, hang out space, dog free section of garden etc; Currently the building is mostly used for storage.

My wife and I are now elderly and becoming in need of ground floor only accommodation and of [REDACTED]

With some internal modifications and additions, we feel this outbuilding would make an suitable granny annex. No external changes to the building or external grounds will be required.

We have submitted drawings of the building which is fully insulated to the required standards to meet building regulations and will provide us with all that we need at ground level as I am disabled and already largely confined to the ground floor of our current house. Our current house is also predicted to suffer from flooding at some time in the foreseeable future and we want to rid ourselves of the worry that the prospect of this now causes us.

We therefore hope that this application will be viewed favourably and we will be able to look forward to a less stressful life with our family on hand to help where needed.

Yours Sincerely

R J and D M Purdue
