Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I live in the local area and use Green Lane continually. I object strongly because The roads around the area, often cannot cope now, at certain times , school times , when A227 is used as a rat run, people leaving for work or returning. This just adds still more hundreds of more cars, together with thousands from all the other developments planned. This is one of the worst. This is Greenbelt/prime agricultural land that separated Sole Street and Meopham. You will be effectively joining them up . The land acts not only as a buffer but supports much wildlife and allows rainwater to soak away. The services are already creaking with not enough GP and hospital services. The infrastructure just cannot cope with all this new development planned. The cumulative effect of all these developments will be disastrous for the whole area.
-----------	---

Once you add traffic that tries to avoid the Lower Thames Crossing ,I foresee the area being forever blighted. What was once an area of outstanding beauty of individual villages will become an ugly mess.

Please don't allow it

Kind regards
