Reasons for comment:

Comments:

I am objecting to the planned building of 725 homes.

This site is Greenbelt, Grade 2 agricultural land. There are crops growing there now. There are a significant number of skylarks singing and nesting in these fields. Buzzards are seen regularly alongside many other birds and animals. In the plans it says about leaving open spaces for wildlife but with 725 homes plus a school you aren't going to skylarks nesting and all the other wildlife that at the moment are here.

It has been clear after lockdown, how important large open spaces are. Many more people are now using the countryside for recreation. It has also been a proven fact it is good for people's mental health to be out in the country side. There are also enough brown field sites in the borough to fulfil housing requirements. Why build on fields and merge 2 villages. Meopham and Sole Street.

Meopham GP Practice is already at full capacity.

The surrounding roads to this proposed sites already are extremely busy especially around school times. Or when traffic is using Wrotham road as a cut through to A2 or M20. All it takes are lights to go up and people are sitting in traffic jams.

Also more pollution with a lot more cars being in the village.

We need to keep our fields they give us food, we need to support farmers and keep our countryside for future generations.

Kind regards
