Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I object to the proposed works as my flat faces [REDACTED] of number 49. 5 of [REDACTED] 7 windows overlook the side of the building. A two story extension to the rear and a side extension would completely block any natural light coming into [REDACTED] flat. A side extension would overlook [REDACTED] kitchen, living room and bathroom removing any element of privacy and roof lights would inevitably shine into [REDACTED] flat. Meaning by day I would have no light and by night I would have too much! I'm also concerned about the inevitable dirt, dust and debris arising from such works. I have several health conditions and breathing dusty air could have very nasty consequences for me.

Kind regards
