Reasons for comment:	
Comments:	We need to maintain our rural and village character and preserve our natural environment for sustainable & ecological reasons. The main road through the village and shopping parade near the site is already heavily congested and will not be able to sustain additional pressures from the proposed development. No exceptional circumstances have been evidenced. Existing infrastructure is at full capacity including local hospital and doctors surgery, which are both struggling with current patient load. Ecological systems and habitats will be damaged.

Kind regards
